## Rocky Mountains™

Oh, those big, big mountains! Evoking images of the Rocky Mountains, this new series by that name uses traditional shapes and western themed icons to serve your favorite foods. The invigorating big skies, the robust air, the quick change of weather, the abundance of wildlife and the glimpse of native culture are embodied in the images on these pieces. Displayed fireside by the stone hearth of a lodge in Montana or used simply to remember a great camping trip "Out West", the Rocky Mountains' spirit is captured in this timeless design by Ms. Amy Engle for Wilton Armetale.

Armetale products ~ on the stovetop, in the oven, on the grill, from the fridge and to the table. Substantial, beautiful products that reflect the way you life.
